

Set up:

Give each player the same number of piggy pieces. If you're playing alone, you get all 12 pieces! Place the mud puddle base in the center of the play area.

Winning:

If you're the first player to place your last game piece on the piggy pile without any pieces falling off the game base, you win!

Play:

- 1) The youngest player goes first. If that's you, place any one of your pieces on the game base.
- 2) Turns pass to the left. If on your turn, any game pieces fall off of the game base, your turn ends. You must take any pieces that fell off the game base!
